College for PG med edu in every dist: PM

Jaipur: The government is making efforts to ensure each district of the country has a medical college or an institution for post-graduate medical education, Prime Minister Narendra Modi said on Thursday.

He also said the gap in medical education and delivery of health services is being reduced and that the government's focus is on preventive healthcare as well as promoting ayurveda and yoga. In six years, more than 170 medical colleges have been completed and work on over 100 new medical colleges is going on at a fast pace, Modi said at a virtual ceremony to mark the foundation stone laying of four medical colleges and inauguration of the Institute of Petrochemicals Technology in Rajasthan. "The Centre is making efforts that there should be one medical college or institution for PG (post-graduate) medical education in every district," he said.

Talking about the erstwhile Medical Council of India (MCI), he said that questions used to be raised on its decisions and there were allegations on its transparency. "These had an adverse impact on quality of medical education and delivery of health services, the prime minister said.

He said after efforts and many challenges, the government was finally able to bring reform by forming the National Medical Commission in place of the MCI. The impact of the commission is now visible, Prime Minister Modi said. Modi said when he became chief minister of Gujarat 20 years ago, there were many challenges in the areas of medical infrastructure, medical education and treatment facilities, but he accepted the challenges and tried to change the situation with collective efforts. **PH**

India records 23,529 Covid cases, 311 deaths

Active Case Tally, However, Dips To Its Lowest In 195 Days

New Delhi: India recorded a single-day rise of 23,529 Covid-19 cases on Thursday, taking its infection tally to 3,37,39,980, while the count of active cases dipped to 2,77,020, the lowest in 195 days, according to Union Health Ministry data.

The death toll due to the disease has climbed to 4,48,062 with 311 daily fatalities being recorded, according to the data updated at 8 am. The number of active cases has declined to 2,77,020, comprising 0.82 per cent of the total infections – the lowest since March 2020, the ministry said.

The national Covid-19 recovery rate was recorded at 97.85 per cent, the highest since March 2020, it added. A decrease of 5,500 cases has been recorded in the active Covid-19 caseload in a span of 24 hours.

Also, 15,06,254 Covid-19 tests were conducted in the country on Wednesday, taking the total number of such examinations done so far to 56,89,56,439, the data showed.

The daily positivity rate was recorded at 1.56 per cent. It has been below three per cent for 31 days.

The weekly positivity rate was recorded at 1.74 per cent. This figure has been below three per cent for 97 days, according to the health ministry.

The number of people who have recovered from the disease has surged to 3,30,14,898, while the case fatality rate was recorded at 1.33 per cent.

The cumulative number of coronavirus vaccine doses administered in the country so far under the nationwide inoculation drive has exceeded 88.34 crore.

India's Covid-19 infection tally had crossed 20 lakh on August 7, 2020, 30 lakh on Au-

30 medical students test +ve in Mum

Mumbai: As many as 30 medical students of civic-run KEM Hospital in Mumbai have tested positive for COVID-19, a BMC official said on Thursday. One of the MBBS students, who has mild symptoms of the infection, has been admitted to SevenHills Hospital for treatment, said the Brihanmumbai Municipal Corporation (BMC) official. The other students are asymptomatic and have been quarantined, he said. All the infected students were staying in a hostel inside the hospital complex located at Parel in central Mumbai, the official said. **PH**

gust 23, 40 lakh on September 5, 50 lakh on September 16, 60 lakh on September 28, 70 lakh on October 11, 80 lakh on October 29, 90 lakh on November 20 and one crore on December 19.

The country surpassed the grim milestone of two crore infections on May 23 and three crore on June 4.

The 311 new fatalities include 155 from Kerala, and 49 from Maharashtra.

A total of 4,48,062 deaths have been reported so far in the country, including 1,39,011 from Maharashtra, 37,780 from Karnataka, 35,550 from Tamil Nadu, 25,087 from Delhi, 24,965 from Kerala, 22,892 from Uttar Pradesh, and 18,778 from West Bengal. **PH**

Vax exempted from customs duty till Dec 31

New Delhi: The government has exempted customs duty on Covid-19 vaccines for three months till December 31, which will boost domestic availability and make them cheaper. In a notification dated September 29, the Central Board of Indirect Taxes and Customs (CBIC) said the exemption would come into force on October 1, 2021, and remain in force up to December 31, 2021.

Earlier in April, the government had exempted basic customs duty on the import of COVID vaccines for three months. Following the conclusion of the three-month period, COVID-19 vaccines imported attracted 10 per cent duty.

The exemption from import duty would help keep low the cost of overseas vaccines that are being eyed to supplement domestically made shots of Covishield and Covaxin. **PH**

3,000 blood samples screened in research

► Continued from P 1

In 2020, Dr Mulasari and cardiologists from six institutes across India worked with expert teams from the US and the UK to study the risk score. "Scientists concluded that the genetic risk score for coronary artery diseases in South Asians enables striking stratification of disease risk in middle-age," concluded Minxin Wang from the Cardiovascular Disease Initiative, Broad Institute of MIT and Harvard.

During the study, blood samples of nearly 3,000 people, including 1,800 cardiac patients from across the country, were screened. Similar studies done in the UK showed that the polygenic risk score was 1.6 times higher in Indians living in the UK compared to Caucasians. "Our study reconfirmed this. The risk in some groups of Indians went up to nearly 2.4 times compared to their Western

GETTING A HOLD ON THE HEART

counterparts," Dr Mulasari said.

Coronary artery diseases are among the leading causes of death across the world as well as India. Several studies have also shown that Indians acquire the disease at a much younger age. For instance, the mean average age for Indians getting heart disease is 54 compared to 64 among Caucasians. Also, risk of getting a heart disease is up to 21% among Indians aged 45 years compared to 5 to 7% among Caucasians.

Law minister Rijiju is a decent dancer, tweets PM Modi

New Delhi: Cheering vibrant culture of Arunachal Pradesh, Prime Minister Narendra Modi Thursday said that Union law minister Kiren Rijiju is a decent dancer. Modi tagged a tweet by Rijiju about his visit to Kazalng village where the SajoLang people were participating in the original folk songs and dances. "Our Law Minister @KirenRijiju is also a decent dancer! Good to see the vibrant and glorious culture of Arunachal Pradesh," Prime Minister tweeted.

Union law minister on Wednesday night shared video of his visit to Kazalng village to monitor the Vivekananda Kendra Vidyalaya Projects. "During my visit to beautiful Kazalng village to monitor the Vivekananda Kendra Vidyalaya Projects. This is traditional merrymaking of SajoLang people whenever guests visit their village. The original folk songs and dances are the ESSENCE of every community in Arunachal Pradesh," Rijiju tweeted.

In the over a minute video, Rijiju was also seen matching his steps with local residents. SajoLang people were seen welcoming him with traditional folk songs as residents of village and minister danced to the traditional tunes. **IANS**
