5. Evaluation process

A two stage process is adopted for selection of the vendor:
Stage 1 –Eligibility Cum Technical Bid

Stage 2 – Commercial Bid

During evaluation of the Tenders, the Bank, at its discretion, may ask the Vendor for clarification in respect of its tender. The request for clarification and the response shall be in writing, and no change in the substance of the tender shall be sought, offered, or permitted. The Bank reserves the right to accept or reject any tender in whole or in parts without assigning any reason thereof. The decision of the Bank shall be final and binding on all the vendors to this document and bank will not entertain any correspondence in this regard.

The Bank will examine the Bids to determine whether they are complete, required formats have been furnished, the documents have been properly signed, and the Bids are generally in order.

The Bank may, at its discretion, waive any minor infirmity, non-conformity, or irregularity in a Bid, which does not constitute a material deviation.

Prior to the detailed evaluation, the Bank will determine the substantial responsiveness of each Bid to the Bidding Document. For purposes of these Clauses, a substantially responsive Bid is one, which conforms to all the terms and conditions of the Bidding Document without material deviations. Deviations from, or objections or reservations to critical provisions, such as those concerning Bid Security, Applicable Law, Performance Security, Qualification Criteria, Insurance, Warranty, AMC and Force Majeure will be deemed to be a material deviation. The Bank's determination of a Bid's responsiveness is to be based on the contents of the Bid itself, without recourse to extrinsic evidence. The Bank reserves the right to evaluate the bids on technical & functional parameters including possible visit to inspect live site/s of the system integrator or bidder and witness demos of the system and verify functionalities, response times, etc.

If a Bid is not substantially responsive, it will be rejected by the Bank and may not subsequently be made responsive by the system integrator or Bidder by correction of the non-conformity. The technical evaluation will take into account the capability of the bidder to implement the proposed solution.

Only those system integrators or bidders whose Technical bids have been found substantially responsive would be intimated by the Bank about their responsiveness and about the revised/updated Technical & Functional Specification (if any) arising out of normalization (if any). In case of normalization and/or revision, they would also be advised to submit fresh "Price Bid" which should either be equal to or less than the Prices quoted in the Original Price Bid.

Total		200

7. Stage 2 – Commercial Bid:

Techno-Commercial Evaluation

The total weight-age for technical evaluation will be 80% and that for commercial evaluation (i.e. commercial bid) will be 20%. These weightage shall be taken into consideration for arriving at the Successful bidder. The “**Total Cost**” shall be reckoned as the rate per letter quoted by the agency for determining the score on commercial bid. Agencies will be given ranking on the basis of scores arrived at by using the following formula:

- Under techno-commercial evaluation, the technical and financial proposals will be allotted weightage based on the requirement of the work/procurement.
- Technical proposal shall be evaluated taking into account criteria as prescribed in the RFP by awarding marks so as to make total maximum technical score as 100. The criteria and weightage to each criteria or sub-criteria would depend on the requirements of each case and may be fixed objectively.
- Minimum qualifying marks or relative qualifying method for quality of the technical proposal will be prescribed and indicated in the RFP. The bidders who are qualifying as per the technical evaluation criteria will only be considered as eligible for commercial evaluation.
- Proposal with the lowest cost may be given a financial score of 100 and other proposals given financial scores that are inversely proportional to their prices.
- The total score, both technical and financial, shall be obtained by weighing the quality and cost scores and adding them up. The proposed weightages for quality and cost shall be specified in the RFP.
- Highest points basis: On the basis of the combined weighted score for quality and cost, the bidders shall be ranked in terms of the total score obtained. The proposal obtaining the highest total combined score in evaluation of quality and cost will be ranked as H-1 followed by the proposals securing lesser marks as H-2, H-3 etc. The proposal securing the highest combined marks and ranked H-1 shall be recommended for award of contract.

As an example, the following procedure can be followed. In a particular case of selection of bidder, It was decided to have minimum qualifying marks for technical qualifications as 70 and the weightage of the technical bids and financial bids was kept as 80 : 20. In response to the RFP, 3 proposals, A, B &

C were received.

The tender committee awarded them 85, 80 and 90 marks respectively. The minimum qualifying marks were 70. All the 3 proposals were, therefore, found technically suitable and their financial proposals were opened after notifying the date and time of bid opening to the successful participants. The tender committee examined the financial proposals and evaluated the quoted prices as under:

Proposal	Evaluated cost
A	120
B	100
C	110

Using the formula LEC / EC , where LEC stands for lowest evaluated cost and EC stands for evaluated cost, the Committee gave them the following points for financial proposals:

Proposal	LEC / EC	Points
A	100/120	83
B	100/100	100
C	100/110	91

In the combined evaluation, thereafter, the tender committee calculated the combined technical and financial score as under:

Proposal A:	$85 \times 0.80 + 83 \times 0.20$	84.6
Proposal B:	$80 \times 0.80 + 100 \times 0.20$	84
Proposal C :	$90 \times 0.80 + 91 \times 0.20$	90.2

The three proposals in the combined technical and financial evaluation were ranked as under:

Proposal A:	84.6	H2
Proposal B:	84	H3
Proposal C :	90.2	H1

Proposal C at the evaluated cost of Rs.110 was, therefore, declared as winner and recommended for negotiations/approval, to the competent authority.

The bidder may quote the best competitive price in the commercial bid as Bank may or may not opt for Reverse Auction and in case Bank does not opt for Reverse Auction, the commercial bid submitted by you will be opened to decide the L1 price. Our Bank's Business Rules and Terms & Conditions of Reverse Auction will be applicable. Please note the contents and comply with the requirements of the same. Thereafter the Bank reserves the right of selection of Vendor by Opening of Commercial Bids of vendors, who are found eligible after evaluation of Technical Bids.

After opening of price bids and declaring the prices, the Bank will evaluate and compare the Price bids.

Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the Successful Bidder does not accept the correction of the errors, its Bid will be rejected, and its Bid security may be forfeited. If there is a discrepancy between

words and figures, the amount in words will prevail.

In case, prices are not quoted by any system integrator or Bidder for any specific item / Product / service, for the purpose of evaluation, the highest of the prices quoted by other system integrators or Bidders participating in the bidding process will be reckoned as the notional price for that product /service, for that system integrator or Bidder. However, if selected, at the time of award of Contract, the lowest of the price(s) quoted by other system integrators or Bidders (whose Price Bids are also opened) for that product /service will be reckoned.
