

## The IPO Boom

India's economy continues to report strong growth with our estimate now being 6.5-6.6% that is much higher than its global counterparts (Global growth: 3%), and making it's a one of the top contenders in the global IPO market space. This year itself more than 150 initial public offerings (IPOs) have already been listed on the exchanges. The uncertainty in the global landscape coupled with lacklustre growth and growing geopolitical tensions, has made India a much attractive destination on the back of strong macroeconomic condition and stable political climate. The study discusses how the IPO markets have performed in the last 2-years.

### Global Market

Global IPOs have been gaining momentum indicating rapid demand and growing attractiveness towards this sector. Fig 1 and 2 sheds light on the increasing number of IPOs listed across countries through the years. Furthermore, higher number of IPOs have also translated in to rising IPO proceeds in the global financial market space. For the year 2021, a total of 2436 IPOs have been listed resulting in the total proceeds of US\$460bn.

### Domestic trend

In the last 5-years, IPO market has expanded with the number of issues almost doubling in this period. The cumulative issue size across these years have also grown from Rs 16,754 cr in the year 2018 to 1,38,894 cr in 2021-22. This implies the accelerated demand for equities and also showcases the investors' confidence in the financial market.

**Table 1: Movement of IPO market over the years**

Years	No. of issues (count)	Amount (Rs cr)
2018-19	129	16,754
2019-20	73	65,509
2020-21	74	1,02,062
2021-22	164	1,38,894
2022-23*	237	45,266

### **Concluding remarks**

Strong optimism in the domestic market have fueled the surge in the IPO listing in the last 2-years. Across these years, following industries have contributed the most including pharma, insurance, healthcare, edible oil and textile. Notably, large number of IPOs have also been listed at premium making this a win-win situation for investors. However, this space needs to be seen with caution as it remains to be seen if the euphoria will continue in the upcoming election year too.
