Except as specifically agreed by and between Vendor and Bank, the ownership of all rights, title and interest, including without limitation, all patents, copy right, trade secrets and any other form of intellectual property rights in and to software,

any derivative works thereof and enhancements thereto, software and documentation are and shall at all times remain with the Vendor or its Licensors and be the sole and exclusive property of the Vendor or its Licensors. The Bank acknowledges that nothing contained in this Tender and subsequent Agreement shall be construed as conveying by the Vendor or its licensor's title or ownership interest in any licensed software or any derivative works thereof and enhancements thereto. Nothing contained herein shall be construed to preclude the Vendor from owing, using, improving, marketing, including without limitation, licensing to other persons any and all licensed software.

- E. Rights: The Vendor shall ensure that the software does not infringe third party intellectual property rights. If a third party's claim endangers or disrupts the Bank's use of the software, the Vendor shall be required to, at no further expense, charge, fees or costs to the Bank, (i) obtain a license so that the Bank may continue use of the software in accordance with the terms of this Tender and subsequent Agreement and the license agreement; or (ii) modify the software without affecting the functionality in any manner so as to avoid the infringement; or (iii) replace the software with a compatible, functionally equivalent and non-infringing product; or (iv) refund to the Bank the amount paid for the infringing software and bear the incremental costs of procuring a functionally equivalent software from a third party, provided the option under the sub clause (iv) shall be exercised by the Bank in the event of the failure of the Vendor to provide effective remedy under options (i) to (iii) within a reasonable period which would not affect the normal functioning of the Bank. Vendor is the Prime Vendor for purposes of all deliverables and services, with the single-point responsibility for the same. Should the platform provided by the Vendor be infringing, it would have a serious business impact on the business of the Bank.

Therefore, the Vendor should take responsibility of its actions. Even if Bank would have used the deliverables before the infringement was noticed, legally each such use constituted infringement and therefore the Vendor is in breach of the Vendor's warranty and obligation.

2. Evaluation process

A four stage evaluation system is adopted for selection of the vendor

- ▶ Stage 1 – Eligibility Bid Evaluation
- ▶ Stage 2 - Technical Bid Evaluation
- ▶ Stage 3 - Commercial Bid Evaluation
- ▶ Stage 4 – Weighted Evaluation

During evaluation of the Tenders, the Bank, at its discretion, may ask the Vendor for clarification in respect of its tender. The request for clarification and the response shall be in writing, and no change in the substance of the tender shall be sought, offered, or permitted. The Bank reserves the right to accept or reject any tender in whole or in parts without assigning any reason thereof. The decision of the Bank shall be final and binding on all the vendors to this document and bank will not entertain any correspondence in this regard.

2.1 Eligibility Bid

Eligibility criterion for the Vendor to qualify this stage is clearly mentioned in Annexure 02 – Eligibility Criterion Compliance to this document. The vendor would need to provide supporting documents as part of the eligibility proof.

2.2 Technical Bid Evaluation

The Technical Proposal will be evaluated only for those respondents who are fulfilling the eligibility criteria.

During evaluation of the Tenders, the Bank, at its discretion, may ask the Bidder for clarification in respect of its tender. The request for clarification and the response shall be in writing, and no change in the substance of the tender shall be sought, offered or permitted.

The vendor needs to achieve a cut – off score of 70 marks in this evaluation stage to be qualified for commercial bid opening. Only those vendors who achieve the specified cut – off scores would be short-listed for Commercial Bid Evaluation. Further the vendor must score a minimum of 80% compliance in Product Demonstration and Technical presentation. Even if the vendor meets the 70 mark cut-off and does not meet this criterion of 80% compliance, the vendor would have deemed not to be meeting the RFP Technical requirements. The Technical Proposal will be evaluated for technical suitability and the criteria for evaluation of technical bids are as under:

Criteria	Evaluation Parameters	Sub Scores
No. of Implementation of proposed solution in last 3 years in Large Scale* Organization in India**.	For each Supply 8 marks. Additional 2 Marks will be awarded for Implementation in BFSI. (Max 3 References)	30 (Max Score)
Client Citation	Vendor need to arrange citation (site visit / live customer interaction) with 2 customer describing previous similar	20

Criteria	Evaluation Parameters	Sub Scores
	scope of work of the bidder. Marks will be awarded based on the responses received from the client.	
Technical Presentation and Product Demonstration	Demonstration of in-depth understanding of the Bank's project technical and functional requirements. Major Criteria for demonstration (but not limited to) given in Annexure 11	50
TOTAL MARKS		100

*** Organization having Turnover / Revenue of Minimum 500 Crore Rupees at the time of the Supply.**

****Copies of Work order / client reference should be provided.**

In case there is only one vendor having technical score of 70 or more, the Bank may, at its sole discretion, also consider the next highest technical score and qualify such vendor. In case, none of the participating vendors qualify on technical criteria and reach or exceed the cut-off score of 70, then the Bank, at its sole discretion, may qualify two vendors on the basis of the top 2 scores. However, the Bank at its discretion may reject the proposal of the Vendor or will not consider vendor below cutoff marks by relaxing as mentioned above, if in the Bank's opinion the Vendor could not present or demonstrate the proposed solution as described in the proposal or in case the responses received from the customer contacts / site visited are negative or the proposed solution does not meet the Bank's functional and technical requirement.

The Bank reserves the right to accept or reject any tender in whole or in parts without assigning any reason thereof. The decision of the Bank shall be final and binding on all the vendors to this document and bank will not entertain any correspondence in this regard.

Vendors who meet these criteria would only qualify for the commercial bid opening.

2.3 Commercial Bid Evaluation

The vendor who achieves the required cut – off technical score as part of technical evaluation shall be qualified for commercial bid opening. The commercial bid would be evaluated based on a "Total Cost of Ownership" ('TCO') basis. The key considerations of the TCO would be the total payouts for entire project through the contract period of 3 years, discounted at 10% to arrive at the present value of the future cash outflows. The evaluation will be done as follows:

- The discounted rate will be calculated on yearly basis based on the formula $A/(1+i/100)^n$ where A= Total Value in each Year; i=10% and n =Year.
- The Present Value will be calculated for all components where the payment is recurring year on year. The Present Value for the component will start from the year of purchase of that component / start of the services (AMC) and shall be calculated till the end year of the contract. Further n - number of period will be '0' in the year of purchase of that component / start of the services and subsequently

increased by 1 for subsequent years.

- Any component / service for which the payment is a One Time Cost the NPV cost of the equipment / service for that year will be considered and the relevant year's NPV cost will be added as part of the Present Value calculation for that year. Further the payment of the OTC component / service not being recurring in nature hence the present value for that component / service will be considered in the year of purchase only and not in subsequent years.

2.4 Weighted Evaluation

On the basis of the combined weighted score for technical and commercial evaluation, the bidders shall be ranked in terms of the total score obtained. The proposal obtaining the highest total combined score in evaluation of quality and cost will be ranked as H-1 followed by the proposals securing lesser marks as H-2, H-3 etc. The proposal securing the highest combined marks and ranked H-1 shall be recommended for award of contract.

As an example, the following procedure can be followed:

A score (S) will be calculated for all qualified bidders using the following formula:

$$\frac{C_{low}}{C} \times 100 + T(1 - X)$$

C stands for discounted rate arrived basis of commercial evaluation;

C_{low} stands for the lowest discounted rate arrived basis of commercial evaluation.

T stands for technical evaluation score and

X is equal to 0.30.

#	Bidder	Technical Evaluation Marks (T)	Discounted Rate (C)	T * 0.70 (A)	[(C _{low} / C) x 100] x 0.30 (B)	Score (S = A +B)
1	AAA	75	120	52.5	25	77.5
2	BBB	80	100	56	30	86
3	CCC	90	110	63	27.3	90.3

In the above example, **C_{low}** is 100.

In the above example, CCC, with the highest score becomes the successful bidder. In case of more than one bidder with equal highest score (S) upto three decimal, then number of decimal will be increased.

The decision of the Bank shall be final and binding on all the bidders to this document. The Bank reserves the right to accept or reject an offer without assigning any reason whatsoever.
