2. Evaluation process

A two stage process is adopted for selection of the vendor:

- ▶ Stage 1 –Eligibility Cum Technical Bid
- ▶ Stage 2 – Commercial Bid

During evaluation of the Tenders, the Bank, at its discretion, may ask the Vendor for clarification in respect of its tender. The request for clarification and the response shall be in writing, and no change in the substance of the tender shall be sought, offered, or permitted. The Bank reserves the right to accept or reject any tender in whole or in parts without assigning any reason thereof. The decision of the Bank shall be final and binding on all the vendors to this document and bank will not entertain any correspondence in this regard.

2.1 Eligibility cum Technical Bid

Eligibility criterion for the Vendor to qualify this stage is clearly mentioned in Annexure 02 – Eligibility Criterion Compliance to this document. The vendor would need to provide supporting documents as part of the eligibility proof.

The technical bids of only those vendors who qualify in the eligibility criteria will be evaluated. The Technical Proposal will be evaluated for technical suitability Annexure 10. Vendor needs to provide compliance on the technical requirement as given in Annexure 10.

Proof of Concept (POC) for Exadata X8-2/LATEST Database & Storage Servers:

Bank has the discretion to ask the bidder to demonstrate the Bank's existing setup as a part of POC with the proposed product. The bidder can demonstrate the setup at Bidder/OEM lab or in a customer environment.

POC will be based on the following conditions:

- a) All and any cost associated with demonstrating the POC (including provision of hardware, technical resources, travel cost, boarding cost etc.) will be to the account of the vendor and bank will not bear any cost.
- b) Bank reserves its right to extend / shorten the period of POC where needed.
- c) The POC would be done to check whether the quoted model meets the technical requirement as mentioned in Annexure 10. Further POC will verify the compatibility with existing infrastructure of the Bank
- d) Vendors who have failed in the POC will automatically stand disqualified technically.

The Bank's officials would visit reference sites provided by the Vendor if deemed necessary. The reference site which will be visited by the bank officials should be installed with the proposed make. The Bank at its discretion may reject the proposal of the Vendor in case the responses received from the site visited are negative and / or in case there are no such reference sites with the requirement detailed above.

The Bank reserves the right to modify the configuration of Hardware thereof to be ordered.

Vendors who meet these criteria would only qualify for the commercial bid opening.

2.2 Commercial Bid Evaluation

The commercial bids of only those vendors who qualify in both eligibility and technical evaluation will be opened. The date for opening of the commercial bid would be communicated separately to the eligible vendors. The commercial bid would be evaluated based on a “Total Cost of Ownership” (‘TCO’) basis. The key considerations of the TCO would be the total payouts for entire project through the contract period of 5 years, discounted at 10% to arrive at the present value of the future cash outflows. The evaluation will be done as follows:

- ▶ The discounted rate will be calculated on yearly basis based on the formula $A/(1+i/100)^n$ where A= Total Value in each Year; i=10% and n =Year.
- ▶ The Present Value will be calculated for all components where the payment is recurring year on year. The Present Value for the component will start from the year of purchase of that component / start of the services (AMC) and shall be calculated till the end year of the contract. Further n - number of period will be ‘0’ in the year of purchase of that component / start of the services and subsequently increased by 1 for subsequent years.

Any component / service for which the payment is a One Time Cost the NPV cost of the equipment / service for that year will be considered and the relevant year’s NPV cost will be added as part of the Present Value calculation for that year. Further the payment of the OTC component / service not being recurring in nature hence the present value for that component / service will be considered in the year of purchase only and not in subsequent years.
