required of Tier 2 instruments at the Point of Non Viability as provided for in Annex 16 of the aforesaid circular.

Accordingly, the Bond and the Bondholders claim, if any, against Bank, wherever situated, may at the option of RBI be permanently written-off, in whole or in part, upon the occurrence of the trigger event called Point of Non-Viability ("PONV").

PONV trigger event shall be as defined in the aforesaid Basel III Guidelines and shall be determined by the RBI.

RBI may in its imminence alter or modify the PONV trigger whether generally or in relation to the Bank or otherwise. In any case it should be noted that following writing-off of the Bonds and claims and demands as noted above neither the Bank, nor any other person on the Bank's behalf shall be required to compensate or provide any relief, whether absolutely or contingently, to the Bondholder or any other person claiming for or on behalf of or through such Bondholder and all claims and demands of such persons, whether under law, contract or equity, shall stand permanently and irrevocably extinguished and terminated.

Unless otherwise specified in the Disclosure Document, the writeoff of any common equity or any other regulatory capital (as
understood in terms of the aforesaid circular or any
replacement/amendment thereof), whether senior or pari passu or
subordinate, and whether a Tier 1 capital or otherwise shall not be
required before the write-off of any of the Bonds and there is no
right available to the Bondholder hereof or any other person
claiming for or on behalf of or through such holder to demand or
seek that any other regulatory capital be subject to prior or
simultaneous write-off or that the treatment offered to holders of
such other regulatory capital be also offered to the Bondholders.

The write-down will have the following effects:

- (a) Reduce the claim of the Bonds in liquidation;
- (b) Reduce the amount re-paid when a call is exercised; and
- (c) Partially or fully reduce Coupon payments on the Bonds.
- 50. Permanent principal writedown on PONV Trigger Event

The Bonds, at the option of the Reserve Bank of India, can be permanently written off upon occurrence of the trigger event, called the Point of Non-Viability Trigger ("PONV Trigger"). If a PONV Trigger (as described below) occurs, the Issuer shall:

- (i) notify the Trustee;
- (ii) cancel any coupon which is accrued and unpaid on the Bonds as on the write-down date; and
- (iii) Without the need for the consent of Bondholders or the Trustee, write down the outstanding principal of the Bonds by such amount as may be prescribed by RBI ("PONV Write Down Amount") and subject as is otherwise required by the RBI at the relevant time. The Issuer will affect a write-down within thirty days of the PONV Write-Down Amount being determined and agreed with the RBI.

The Bonds are issued subject to Basel III Guidelines on PONV as amended from time to time (including all claims, demands on the Bonds and interest thereon, whether accrued or contingent), and at the option of the RBI, can be permanently written down upon the occurrence of the trigger event, called "Point of Non-Viability Trigger" ("PONV Trigger").

PONV Trigger, in respect of the Issuer or its group, means the earlier of:

- (i) a decision that a principal write-down, without which the Issuer or its group (as the case may be) would become non-viable, is necessary, as determined by the RBI; and
- (ii) the decision to make a public sector injection of capita, or equivalent support, without which the Issuer or its group (as the

case may be) would have become non-viable, as determined by the RBI.

The PONV Trigger will be evaluated both at consolidated and solo level and breach at either level will trigger write-off.

For this purpose, a non-viable bank will be:

A bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the RBI unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 Capital of the bank should be considered as the most appropriate way to prevent the bank from turning non-viable. Such measures would include a permanent write-off in combination with or without other measures as considered appropriate by the RBI.

RBI would follow a two-stage approach to determine the non-viability of the Issuer. The Stage 1 assessment would consist of purely objective and quantifiable criteria to indicate that there is a prima facie case of the Issuer approaching non-viability and, therefore, a closer examination of the Issuer's financial situation is warranted. The Stage 2 assessment would consist of supplementary subjective criteria which, in conjunction with the Stage 1 information, would help in determining whether the Issuer is about to become non-viable. These criteria would be evaluated together and not in isolation. Once the PONV is confirmed, the next step would be to decide whether rescue of the Issuer would be through write-off alone or write-off in conjunction with a public sector injection of funds.

The Write-off of any Common Equity Tier 1 capital shall not be required before the write-off of any Non-equity (Additional Tier 1 and Tier 2) regulatory capital instrument. The order of write-off of the Bonds shall be as specified in the order of seniority as per the Disclosure Document and any other regulatory norms as may be stipulated by the RBI from time to time.

A write-down may occur on more than one occasion.

Once the principal of the Bonds have been written down pursuant to PONV Trigger Event, the PONV Write-Down Amount will not be restored in any circumstances, including where the PONV Trigger Event has ceased to continue.

A write-down due to a PONV Trigger Event shall occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. However, any capital infusion by Government of India into the Issuer as the promoter of the Issuer in the normal course of business may not be construed as a PONV Trigger.

The Bondholders shall not have any residual claims on the Issuer which are senior to ordinary shares of the Issuer, following a PONV Trigger and when write-off is undertaken.

If the Issuer is amalgamated with any other bank after the Bonds have been written down pursuant to a PONV Trigger, these cannot be reinstated by the amalgamated bank.

If the RBI or other relevant authority decides to reconstitute the Issuer or amalgamate the Issuer with any other bank, pursuant to Section 45 of the BR Act, the Issuer will be deemed as non-viable or approaching non-viability and the PONV Trigger and prespecified trigger as per Basel III Guidelines will be activated. Accordingly, the Bonds will be permanently written-down in full prior to any reconstitution or amalgamation.

A bank facing financial difficulties and approaching a point of non-

viability shall be deemed to achieve viability if within a reasonable time in the opinion of the RBI, it will be able to come out of the present difficulties if appropriate measures are taken to revive it. The measures including augmentation of equity capital through a permanent write-off or public sector injection of funds are likely to:

a. restore confidence of the depositors/ investors;

 improve rating/ creditworthiness of the bank and thereby improving its borrowing capacity and liquidity and reduce cost of funds; and

c. augment the resource base to fund balance sheet growth in the case of fresh injection of funds

The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level will trigger write-off.

The Bonds can be written-down multiple times in case the Bank hits the PONV Trigger Level subsequent to the first write-down. The Bonds which has been written off shall not be written up.

Such a decision would invariably imply that the write-off consequent upon the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. The Bondholders shall not have any residual claims on the Bank (including any claims which are senior to ordinary shares of the Bank), following any trigger event.

In any case it should be noted that following writing-off of the Bonds and claims and demands as noted above neither the Bank, nor any other person on the Bank's behalf shall be required to compensate or provide any relief, whether absolutely or contingently, to the Bondholder or any other person claiming for or on behalf of or through such holder and all claims and demands of such persons, whether under law, contract or equity, shall stand permanently and irrevocably extinguished and terminated. Unless otherwise specified in the Disclosure Document, the write-off of any common equity or any other regulatory capital (as understood in terms of the aforesaid circular or any replacement/amendment thereof), whether senior or pari passu or subordinate, and whether a Tier 1 capital or otherwise shall not be required before the writeoff of any of the Bonds and there is no right available to the Bondholder hereof or any other person claiming for or on behalf of or through such holder to demand or seek that any other regulatory capital be subject to prior or simultaneous write-off or that the treatment offered to holders of such other regulatory capital be also offered to the Bondholders.
